Register NOW, to be sure that you always have the newest and neatest stuff!

Opcode is always upgrading our line of software and hardware products. We constantly add new features and quite often we offer free updates to registered users. Please be sure to fill in the registration card on the opposite page so that you will always STAY INFORMED!

Only registered users receive the following:

1. Software and hardware update notices
2. Information about hot new products
3. The Opcode "MIDIphile" newsletter
4. Occasional FREE stuff and special pricing!
5. FREE customer support 6 days a week!

Technical Expertise

We realize that support is a vital part of customer satisfaction, and we feel that Opcode truly has one of the best support staffs around. Send in your registration card immediately to qualify for technical support and access to our expertise.

If you have a problem, please call us, but first follow these steps:

1. Check your documentation. Most of your questions are probably answered in the manual.
2. Check reference manuals for your other hardware/software (computers, synthesizers, etc.).
3. Before you call, have information that pertains to your problem available. Your hardware configuration, software version numbers, and product manual should all be in front of you. Also note any strange on-screen occurrences.
4. Have your serial number in front of you.
5. Call Customer Support with the software up and running in front of you.

Opcode Users outside of the U.S. and Canada receive service and support through your local Opcode distributor. Contact Opcode for the name of the authorized distributor in your country.
